

INSPECTION CHECKLIST FOR

Spill kits

All the items in the "ITEMS TO BE CHECKED" column must be checked to ensure the spill kit is ready for use when needed.

Indicate whether each criterion is met (using a tick) or not (using a cross), or mark as not applicable (NA) if the item is not required in your particular spill kit. Note, inventory items are to be inspected on a quarterly basis (every three months).

ITEMS TO BE CHECKED	<input type="checkbox"/>	COMMENTS
